

Cox Edge Recognized for Putting its Users on Cloud Nine in the 2021 Leading Lights Awards

Atlanta, Georgia – October 21, 2021

– Cox Communications today announced that its full-stack cloud agnostic, compute infrastructure, Cox Edge, was named a winner in the *Light Reading* 2021 Leading Lights Awards program for the best New Cloud Product or Service.

The Leading Lights is the telecom industry's most prestigious awards program, recognizing top companies

and executives for their outstanding achievements in next-generation communications technology, applications, services, strategies and innovations. The winners were announced during an online awards ceremony on October 8, 2021.

"We believe Edge computing is the foundational technology required to implement the next generation of high value use cases for consumers and businesses alike. We are set to provide reliable, near zero latency, fully-connected experiences," said Ron Lev, executive director, Cox Edge. "Cox Edge was designed to process data at the edge of our network addressing the need to digitally transform our customer's businesses and ensure they have what they need to manage the experiences they aspire to deliver."

Cox Edge is a solution strategically designed to deliver ultra-low latency compute platform. With Cox Edge, businesses now have the ability to allow their customers to get closer to the cloud than ever before while remaining compatible with a plethora of applications fully integrated with other Cox technology. With a portfolio of products to choose from, users get a unique experience that allows them to meet their goals efficiently and process their heavy workloads faster.

"Congratulations to Cox Communications for being selected as a Leading Lights winner," said Light Reading Editor-in-Chief Phil Harvey. "The award demonstrates that Cox Communications not only had a great year but is on a trajectory to continue to make a difference in the global communications industry. We look forward to seeing what they do next."

Light Reading's reputation for fiercely independent analysis of the people, products, and companies it covers makes this the most credible and authoritative awards program in the industry. Leading Lights judging was conducted by *Light Reading's* editors with input from the analyst team at *Heavy Reading*.
