

# Blueprint RF Keeps Club Magnolia Guests Connected during the Masters Golf Tournament

*Blueprint RF*

Communications, Inc., who also owns Cox Business. Blueprint RF will provide high-bandwidth connectivity for the VIP guests who visit the Club during Master's week.

"From our putting green to our sky deck, Club Magnolia guests have come to rely upon the comprehensive, stable and secure WiFi connectivity that blankets our property. We're excited once again to provide an superior connectivity experience that includes the WiFi, business centers and expert support services that Blueprint RF have provided over the years. They have consistently met the high standards that Club Magnolia guests demand," said Robbi Raitt, owner of Club Magnolia.

To ensure the best in high-speed connectivity, Blueprint RF installed access points throughout the property to include the popular exterior bars and three-hole putting green. Guests can expect a high-speed connection throughout the property, whether enjoying a complimentary cigar or watching one of the more than 40 flat screen TVs.

Guests who require workstation access can utilize the Blueprint RF SmartCenter business centers featuring sleek 23-inch all-in-one Dell Inspiron One hardware with touch-screen technology and printers.

Club Magnolia is the tournament's premier hospitality club catering to the most discerning corporate and luxury guests throughout the Masters event. The renowned private club offers the best in southern hospitality including premium food and beverage, entertainment, luxury furnishings and dependable high-speed Internet to keep guests connected between visits to the course.

**ATLANTA - April 2, 2018** - Guests of Augusta, Georgia's exclusive, five-star Club Magnolia will once again enjoy high-speed wireless connectivity compliments of Blueprint RF, which is owned by Cox

*"Club Magnolia guests are VIPs, and they deserve a VIP network. The robust Blueprint RF network is designed to handle the bandwidth demands of Club Magnolia guests who may be streaming video and using multiple devices. Our network is designed to enable a seamless transition from the office to the patio," said Ron Peterson, CEO and founder, Blueprint RF.*
