

Cox Business Launches Enterprise-Grade Work-at-Home Connectivity Solutions

Cox Business' new solutions provide forward-looking organizations a way to better support remote staff by supplying a separate connection with broadband, Wi-Fi and related services

ATLANTA - June 24, 2020 – As working at home has become the new normal, many forward-thinking employers are taking extra measures to ensure employee productivity isn't hindered by connectivity challenges. This is why, today, Cox Business introduces the new Cox Business Work-at-Home solutions, including an enterprise-grade, separate internet connection direct to employees' homes.

Cox Business' Work-at-Home solutions allow organizations to provide remote staff with company-provided services, including broadband, Wi-Fi, McAfee endpoint security and MalBlock to help ensure staff members have the same highly reliable, quick connectivity they would have when working in the office.

"Wi-Fi, congestion and security issues have been a concern of many companies as more employees are having to work from home," said Steve Rowley, executive vice president, Cox Business. "Cox Business Work-at-Home solutions separate work and home connectivity, giving employees enterprise-grade connectivity and Wi-Fi to promote more productive employees."

"Cox Business Work-at-Home solutions separate work and home connectivity, giving employees enterprise-grade connectivity and Wi-Fi to promote more productive employees."

Additional benefits of Cox Business' Work-at-Home solutions include:

- Enterprise-grade security with McAfee and MalBlock at home to protect the business.
- Professional installation for data connectivity and self-install for voice functionality.
- Access to a range of commercial features like static IP addresses.
- Complementary business-grade service level agreements and support to quickly resolve issues.
- Secure business voice identity for working at home or on-the-go.
- A la carte options to ensure conferencing and collaboration needs are met, including Microsoft 365, available from RapidScale, a Cox Business company, and Cox Business Complete Care (which combines remote troubleshooting and resolution of PC, laptop and app issues).
- Centralized billing directly to the business.
